STAKEHOLDER & USER MANUAL

CampusConnect: University Club, Event & Activity Management Platform

Attribute	Specification Detail
Document Identifier	CC-USR-2026-V1.0 (IEEE Std 26514-2018 Standard)
Engineering Version	Version 1.0 (Operational Baseline)
Software Engineering Team	Md. Shakhawat Hossain (Student ID: 0432320005101009) | Fahim Hossain (Student ID: 0432320005101007) | Department of CSE
Course Advisor & Supervisor	Al Imtiaz | Department of Computer Science and Engineering
Reviewing Body	Faculty Academic Review Board | Division of Computing and Systems
Release Date & Status	October 2026 | Approved for Engineering Implementation

1. Introduction and Platform Access

This Stakeholder and Role-Based User Manual provides comprehensive, step-by-step guidance for operating CampusConnect, the university's centralized club, event, and extracurricular management platform. The manual is organized by user role: Student, Club Executive, Faculty Advisor, and System Administrator.

The platform is accessible via modern desktop and mobile web browsers (Chrome, Firefox, Safari, Edge) at: https://campusconnect.edu

2. Student Portal User Manual

2.1 Account Creation and Authentication

1. Registration: Navigate to /register. Enter your Full Name, Department, Official Student ID Number (e.g., 0432320005101009), and University Email. Choose a secure password with at least 8 characters.

2. Login: Access /login and provide your university credentials. The platform will authenticate and redirect you to the personal discovery dashboard.

2.2 Discovering Clubs and Joining Organizations

Browse registered campus societies under the Clubs directory. Click on any club to review its mission, executive leadership, and upcoming activities. Click Join Club to submit an application.

2.3 Event Registration and Automated Waitlist

When viewing an event with available seats, click Register Now for immediate confirmation. If the event is full, click Join Waitlist to secure a FIFO position. If a registered attendee cancels, the system automatically promotes the first waitlisted student and notifies them via email.

2.4 Dynamic Attendance Check-in

At the venue, scan the dynamic rotating QR code projected on the hall screen. The code rotates every 20 seconds; screenshots sent from absent peers will expire and fail validation.

2.5 Official Completion Certificates

Following event completion and attendance validation, visit My Profile -> Certificates to download your cryptographically signed PDF certificate featuring an immutable serial and public verification URL.

3. Club Executive Operational Manual

3.1 Drafting and Submitting Event Proposals

From the Executive Desk, click Create New Event. Populate title, category, venue, schedule, capacity limits, and agenda. Click Submit for Review to route the proposal to your assigned Faculty Advisor.

3.2 Operating the Dynamic Check-in Desk

At the event venue, open the Attendance Desk on a laptop connected to the room projector and click Launch Attendance Screen. The live projection rotates HMAC seeds every 20 seconds. For students with device issues, use the Roster Check-in tab to confirm attendance manually.

4. Faculty Advisor Governance Handbook

Faculty Advisors review incoming student event proposals in the Moderation Queue:

- **Compliance Check:** Validates schedule conflicts, room reservations, and safety protocols before granting approval.
- **Approve Action:** Immediately publishes the event to the university catalog and enables student registrations.
- **Reject Action:** Requires mandatory written remarks detailing deficiencies so student organizers can revise and resubmit.

5. System Administrator Governance Guide

Governance Function	Administrative Scope	Key Action
User Role Delegation	Global Users	Elevate students to Club Executive or faculty to Advisor.

Governance Function	Administrative Scope	Key Action
Account Sanctions	Policy Violations	Toggle user status between ACTIVE and SUSPENDED.
Club Chartering	Organization Lifecycle	Create new club charters and assign supervising faculty.
System Audit Trail	Compliance & Forensics	Filter immutable audit logs by actor, entity, and timestamp.

6. Public Credential Verification Guide

External evaluators, employers, and graduate schools can verify certificate authenticity by visiting https://campusconnect.edu/verify and entering the certificate serial number. The system verifies the SHA-256 digital fingerprint against database records and presents a verified status badge with zero login requirements.
